

## SWALLOWDALE CAMP

### Deanna Hoenselaar

Welcome to Swallowdale Camp!

I am very excited about the upcoming summer, and returning to Swallowdale in my new role as a Director. Over the last three summers I have had the opportunity to work at Swallowdale in a variety of positions and cannot imagine a better place to spend my summers.

During the past year I have completed my Bachelor of Education at the University of Windsor. Previously, I completed my Bachelor of Arts in Child and Youth Studies at Brock University. I have been working at summer camps since 2003 and can't imagine spending a summer in any other environment. Working with children and tapping into their boundless energy, the opportunity to provide campers with a positive and memorable camp experience are the things that make summer camps special. I am looking forward to meeting new campers and seeing returning campers from all over the world.

While camp is for the campers, it is the staff that creates the experience. I cannot wait to meet and welcome new staff, and to reunite with returning staff. Our goal is to provide a positive and memorable experience. Swallowdale provides the perfect setting.

Together we will share in making memories and creating a bond that some like to refer to as "the camp family". I look forward to seeing and meeting you all.

### *Director's Message:*

*"I cannot wait for the upcoming summer at Swallowdale Camp. Soon we will all be together as campers, L.I.T.'s and staff. We will be able to share many laughs, songs, and good times. I am sure that we will all come away with amazing memories and a positive experience that will be talked about for a long time. Until then, Welcome to Swallowdale and safe travels."*
